"MEET YOU IN THE TROLLEY"

The words have meant for millions the prelude to an exciting, nostalgic visit to Underground Atlanta, one of the most authentic re-creations of ante-bellum America in existence. A gift from the City of New Orleans, the trolley is a popular point of rendezvous, historic information center and security headquarters.

Dear Mom & Dad,

We didn't get around to sending cards from Atlanta & got back from Hawaii yesterday. Cdr. White is trying to get approval for a person from our base to go on a detail to 3rd fleet HQs. It is barely possible that we will be moving to Hawaii for a year.
